

BluePOD® Conference Mate

BLUETOOTH® AUDIO CONFERENCING SYSTEM AP BP1

The BluePOD® Conference Mate audio conferencing system is designed to simplify making conference calls in your meeting rooms with your mobile phone. With BluePOD®, making a conference call is as simple as tapping the Bluetooth connect button on your phone; no special software is needed. Adjusting the volume, muting and connecting is all done on your phone just like you do it now.

BluePOD® allows you to select the speakers and microphones you want to use. It features an integrated mixer with DSP functions, including Acoustic Echo Cancellation (AEC). And the mixer includes four inputs (two mic/two line), two line outputs and two 25-watt amplifiers. The BluePOD® is designed for easy integration into larger and/or existing audio system projects.

Our patent-pending design allows for integration of the Bluetooth Wireless Access Point into the ceiling directly over your workspace, minimizing distance limitations and signal blockage. No need to install a wireless transceiver in a rack. The POD is enclosed in a UL/plenum-rated steel 4-inch back box, and installation is as simple as running one Cat 6 cable back to the BluePOD® controller.

This amazing BluePOD® Bluetooth audio experience can be integrated into your existing audio system. Whether that be as an input source on an existing audio mixer or by using the existing speakers in the room, BluePOD® is up for the challenge.

FEATURES

- Bluetooth audio conferencing
- Integrated mixer with Acoustic Echo Cancellation (AEC)
- Bluetooth distribution system with Bluetooth Wireless Access Point
- Can be integrated into existing audio systems

MARKETS

- Corporate: Boardrooms/Conference Rooms/Training Rooms
- Education: Lecture Halls/Classrooms
- Government: Courtrooms/City Halls

APPLICATIONS

- Presentation
- Education/Training
- Audio Conferencing

BLUETOOTH® AUDIO CONFERENCING SYSTEM AP BP1

SPECIFICATIONS

- Dimensions: **W** 10" (254mm) **D** 7.5" (190.5mm) **H** 1.75" (44.5mm)
- Weight: 2.75 lb. (1.25kg)
- USB: (4) Type A USB Receptacle, USB 1.1, 2.0 or 3.0 supported.
- Integrated mixer: (2) mic inputs, (2) line inputs and (2) line outputs.
Acoustic Echo Cancellation (AEC) is placed between both microphone inputs and speaker outputs.
- Network: Network access with browser; connect to IP address over Ethernet (RJ45, 10/100 Mbps) network.
- Operating Environment: 32°F to 104°F (0°C to 40°)
- Color: Black + Red/White logo
- Power Supply: Input: AC Power Plug is IEC 320-C14
Output: 24VDC @ 6.7A to DIN Plug
- Power Indicator: Backlit red LED indicates power on.
- Warranty: 2-year, parts and labor
